

# Appliances and Electronics

Would you throw 2 pounds of lead in your garbage? Probably not. Yet when someone disposes of a TV or computer monitor in the garbage, they do just that.

Many appliances and electronics contain elements dangerous to the environment and elements, which are unwanted in the compost, produced at the Prairieland Compost Facility, from the garbage in Faribault and Martin Counties.

Keep appliances and electronic waste out of the garbage stream!

Disposal Options In Martin County:

Waste Management 1839 100 <sup>th</sup> Street Fairmont, MN 235-9859	All year Open 8 – 4:30 weekdays	Cost of disposal varies by the item.
Martin County Cleanup Day 238-3115	<ul style="list-style-type: none"><li>• Held in June of each year</li><li>• Watch newspapers for advertisement</li></ul>	Cost per item

It is illegal to dispose of electronics or appliances in the trash or in the ditches of the county. Do the right thing!!
